Preface of the editors	9
<i>Alexandre Tarantola, Christophe Scheffer, Olivier Vanderhaeghe, Panagiotis Voudouris, Adonis Photiades, Denis Morin</i> Geologic and metallogenic overview of the Lavrion mining district: A guide for archaeological exploration.....	11
<i>James Ross, Panagiotis Voudouris, Vasilios Melfos, Markos Vaxevanopoulos, Konstantinos Soukis, Kelly Merigot</i> What did the ancient Greeks mine at Laurion and when did they mine it?	27
<i>Markos Vaxevanopoulos, James Ross, Konstantinos Soukis, Panagiotis Voudouris, Vasilios Melfos</i> Mapping the shafts of Laurion – Contribution to a new geological stratigraphy	47
<i>Eleni Andrikou, Eleni Papafloratos, Elena Tselepi</i> Keratea, Attica: Early Helladic silver-lead metallurgy and its pottery context.....	57
<i>Olga Kakavogianni, Kerasia Douni, Myrto Georgakopoulou</i> The cupellation of argentiferous lead in Mesogeia, East Attica, during the Final Neolithic/Early Bronze Age periods – The cupellation workshop at Lambrika	73
<i>George D. Papadimitriou</i> Cupellation and litharge in their technological context at Laurion, Attika (Greece) – From Prehistoric to Hellenistic and early Roman periods	87
<i>Margarita Nazou</i> The prehistoric finds from Mine 3 and their relationship to the Thorikos mining community	105
<i>Andreas Kapetanios</i> Ancient Laurion: Stages, phases and landscape	119
<i>Sophia Nomicos</i> The diachronic development of the Laurion mining landscape and its relation to process optimization in mining.....	143
<i>Hans Lohmann</i> Laurion – The present state and future scope of research.....	153
<i>Frank Hulek</i> The trial trenches at Ari/Charvalo in 2016 and the excavation by E. and O. Kakavogianni at Frankolimano Thorikou 1969/70: Preliminary results	175
<i>Roald F. Docter, Kim Van Liefferinge, Floris van den Eijnde, Cornelis Stal, Sophie Mortier, Winfred van de Put, Sophie Duchène</i> Last use and abandonment of the Cistern No. 1 <i>ergasterion</i> at Thorikos: Finds from the lowest levels of the cistern's fill.....	187
<i>Sophie Duchène</i> A Byzantine rotary hand mill in Thorikos	205

Hélène Morin-Hamon

Flat-bedded washeries at Laurion (Greece): A budding model.

A comparative study between archival and field evidence213

Nikiforos Meimaroglou, Charalampos Mouzakis, Anna Kalagri, Andreas Kapetanios

Earthen and hydraulic mortars used at Lavrion during

classical antiquity (5th–4th century BC) – A fundamental relationship

between earthen building tradition and sophisticated hydraulic binders and concrete235

Effie Photos-Jones

Beyond the silver ‘owls’: Laurion lead and its contribution to synthetic lead-based minerals

for the health care/medicines market (4th century BC).....247

Christophe Flament

Fiscal and administrative aspects of the Laurion’s mining leases during the 4th century BC255

Andreas Hauptmann

Glossary of special terms of geoscience, mining-archaeology and archaeometallurgy265
